HILARIOUS

Comedy and art twisted together to make the shy giggle in delight and that fun-loving child emerges for all to see.

Imaginations soar when you watch ordinary transform into extraordinary and light-hearted banter creates a kindred experience.

Over the crowd you see a whisk of color pass over the group's head as a balloon swirls around. Conversations transform from business to family which creates that special long-term relationship.

Dale is your social butterfly who brings smiles, balloons, and people into a conversation allowing them to bridge communication barriers.

New attendees and veteran members are drawn together into a conversation by Dale's ability to communicate with your audience through balloons.
